A: You are in the right place. You can install Mac OS X 10.10 Yosemite from the Mac App Store. To check for updates in the Mac App Store go to: You will need to create a free Apple ID. If you have a Apple ID you already have a credit card. You do not need one. I don't think you need a credit card or ID for the Apple ID. You can also install the latest OS X Yosemite from the command line: 1. Make sure you have the latest version of bootcamp installed. 2. Download Xcode from: 3. Download the installation disk ISO

---

from the downloads page. 4. You will need a USB with at least 10 GB of space. 5. Connect the USB to your Mac. 6. Run the installer. 7. Complete the installation 8. Run BootCamp Assistant. If it says "No operating system installed", double click on the recovery partition. 9. Run the installer. 10. When complete boot into your system. 11. Connect to the internet. 12. Go to this URL: 13. Click on "Learn More" 14. Click on "Sign in with Apple ID and password" 15. Fill in your Apple ID and Password, and click on "Sign in". 16. Click on "Security" and you will see a warning saying that your account has been locked. It will ask you to sign into iCloud or to get a new password. 17. Click on "Get a new Apple ID and get a new password" 18. Click on "Get Started" 19. Fill in your old password. 20. Click on "Reset Apple ID". 21. Click on "Continue". 22. Fill in your new password and click on "Reset password". 23. Your Apple ID should be valid. 24. Install Mac OS X from the app store. You can download the full version of Mac OS X 10.10 Yosemite from the Mac App Store. You do not need a credit card or ID. The Mac App Store will add a credit card and ID on your behalf. , 918 P. 2d92ce491b
